

CAREER SUMMARY

- ✓ I breathe life into creative ideas and static mock-ups via the technical know-how, handling the entire gamut of UI/UX Design & Visualization aspect of a project and talk to my design rationales. Working as a UI/UX & wireframe Designer, interaction & visual designing, I have immense expertise in UI/UX Designing and Flash in a dynamic, inspiring and creative environment.
- ✓ Clean, user-friendly and simple aesthetic interface design, visual design and front-end development skills.
- ✓ Focus on usability, accessibility and standards compliant output.
- ✓ High-impact designs creation that makes Web, Apps & Application products intuitive, efficient, and fun.

KNOWLEDE AND SKILLS

- 9+ years of experience in UI/UX, Wireframe, interaction, visualizer Designing, PowerPoint Presentation Design and Flash Banner Animation, Creative of mobile & desktop. I have worked for a wide range of Web, desktop and Apps.
- Strong command of visual design capabilities, composition, layout information hierarchy, typography and colour.
- Ability to work within tight deadlines, foresight to handle upcoming issues and dedication to solve complex problems. UI/UX Design and front-end Development & Adobe Photoshop, Flash, Illustrator, and Fireworks in Design and front-end Development.
- Excellent Team handling with good Technical, Interpersonal and Logical Skills & Work in a collaborative environment.
- Working knowledge of business processes and designing process documents for new product launches UI / UX Design and develop end-to-end process model for client products and implementation of the enhanced processes.
- Demonstrated with different technologies in crunch situations whenever expected by client or by Sr. Manager & mentoring less experienced team members from time to time & continue to learn new skills and new ways to express the skill.
- Designing all kinds of online Creatives like Innovations Interstitial, Roadblock, Page Push etc for ecommerce, fmcg, telecom genres.
- Experienced in Information, Interaction, Visual Design, UI / UX Designing & wireframe Design, flash animation and Knowledge of estimation & front-end development
- Designed a collection of interactive mockups to capture the whole user interface experience of the application with a focus on the visual design elements of the application.
- Created a collection of high-fidelity wireframes using MS Visio, Balsamiq and Axure describing the content, behaviour, and interaction scenarios of the application interface.

ACADEMICS

- BFA: Tilak Maharashtra Vidyapeeth, Pune
- BCA: Magadha University. Bodhgaya, Gaya.
- G-NIIT: - NIIT South Ext, New Delhi.
- Advance Diploma in Multimedia :- Maya Academy of Advanced Cinematic, New Delhi

TECHNICAL SUMMARY

Expert-level skills with various software tools to provide real solutions to real problems, leveraging an extensive hands-on UI/UX, Visual, Flash Design & front-end development, background to design & implement customized web & apps, flash solutions.

SKILLS	TOOLS
Operating Systems	Windows family, Mac
Graphic Tools	Adobe Flash CS6, Photoshop CS6, Dream weaver CS6, Flash Animation, Action Script 2.0, Adobe Sound booth, Fireworks, Illustrator CS5, wireframe Design (Axure/balsamiq/MS visio)
Internet Technologies	HTML5, CSS2/3, Responsive website, Twitter Bootstrap , lucidchart
Packages	MS Visio, Axure RP, Balsamiq, MS Power Point MS Office (MS Word, MS Excel.), FrontPage

WORK HISTORY

Duration	Organization	Role
June 2012 till date	EPB IT Services Pvt. Ltd.	UI/UX Designer & Consultant
April 2008 to September 2010	Tech Mahindra Ltd	Technical Associate(Flash & UI/UX Designer)
October 2007 to March 2008	Idea Streamz Consultants (P) Ltd	Sr. flash & Graphic Designer
February 2004 to October 2007	WebtriX Technologies Ltd	Flash & web Designer

WORK EXPERIENCE

EPB IT Services Pvt. Ltd.

June 2012 to till date

(39 months)

PROJECT DESCRIPTION

Handling UI/UX Designing, Digital ads & front-end development Team. Responsible are Wireframes, UI/UX Design & Visualization Coordination with clients & stakeholders to gather the initial requirements and provides best UI/UX & Wireframes Designing & front-end development to be implementing into the application.

RESPONSIBILITIES

- Monitoring & Coordinate team in the implementation & manage multiple projects
- Wireframes Design & Visualization for IOS, Android, Web & windows.
- UX / UI Designing in multi-disciplinary & Extensive knowledge of current trends and techniques in Web & Apps Design.
- Efficient approaches for complex design issues for Web, mobiles & Flash Design and animation.
- UI / UX Responsive Design (for mobile, tablets, desktop IOS and android)
- Flash eLearning and Visual Design.
- Convert Wireframes to, PSD and xHTML/HTML5 & CSS2/ CSS3, Fluid Responsive(Web/Mobile/tabs)
- Translation of customer needs into user Interface design & Usability evaluation of Web sites and mobile Applications
- Flash Design, Animation and voice lip syncing (Design Flash Banner for Google ad and yahoo)
- Devised an extremely smart design and structure for the functioning of the training pack implement within the same.
- Digital ads invention, Flash Banner, GIF and HTML5 and Digital Ad in desktop. Mobile and Ipad.
- Conceptualize templates design of the Website and Apps or Design the interface and subsequent pages.
- Comfortable designing user-friendly interfaces exhibiting a strong visual design

Environment: Adobe Photoshop CS5/6, Flash CS5/6/CC, Illustrator, wireframe (Auxre, Balsamiq & MS Visio), Design Dream weaver CS5/CS6, xHTML/HTML5, CSS 2/3, MS PowerPoint, Responsive website, Twitter Bootstrap, JavaScript, jQuery

Tech Mahindra Ltd.

April 2008 to September 2010

(29 months)

PROJECT DESCRIPTION

Worked as multi-disciplinary Flash/ UI/UX Designing and UI development. UI / Visual Design and front-end development telecom based Application, Flash based training, Flash Based Presentations and MS PowerPoint Presentations. Frequently UI Design & Visual Design, dashboard design updating BT website & front-end development in HTML/xHTML/HTML5 and CSS2/CSS3, Flash design & Animation,

RESPONSIBILITIES

- Proficiently performed good User Interface designs
- Meticulously coordinated the complete designing for the training pack developed using Flash.
- eLearning courseware UI design and development.
- Convert Wireframes to, PSD, Flash and xHTML/HTML5 & CSS2/ CSS3.
- Developing and Design storyboards
- Devised an extremely smart design and structure for the functioning of the training pack implement.
- Precisely incorporated all the functionalities requested by the Process Team with their full features
- Dashboard design & Process design
- BT Intranet UI design & front-end Development and update web page.
- Gathering the design requirement from the client.
- Flash Animation and voice lip syncing
- UI design & Frontend development
- Conceptualize UI design, Visual Design of the Web and Flash or Design the interface and subsequent pages.

Environment: Adobe Flash CS3, Photoshop CS3, (Flash Animation) Adobe After Effect, Sound Forge, Adobe Premiere Pro CS3, MS Visio and MS PowerPoint, XML, HTML/DHTML, CSS2, Java script, jQuery.

I have complete understanding of Process Design and have experience of different business process management tasks / deliverables.

1. Telecom Based Presentation for BT Global Services

2. Trainings pack for Openreach Group of British Telecom.
3. Presentation & Training Pack for Orange.
4. Presentation for Guide to Transformation Training Pack.
5. Static Dashboard for BT Intranet Site Design & developed using HTML/xHTML, CSS2, JavaScript and jQuery.
6. BTGS Customer Experience Process Training Pack.

Next Generation Access - FTTC (NGA)

Designed & Developed this project user interface with system. Represent by character animation and audio all screens in conceptual graphics as per the Design Concept.

Simulation Training

Design and Developed the Simulation Training with technology interfaces such as navigation, Audio - Video integration. Illustrations, animations and conceptual graphics as per the Design Concept. Simulation training pack also provides a higher level of abstraction the designer is better able to understand the behaviors and interactions of all the high level components within the system and is therefore better equipped to counteract the complexity of the overall system.

Flexi Cease

UI Design and Developed, designed screens, components and navigation control for better understand of the user. Developed better effects, animations and layout of process flow giving good results and better clarity using character animation. Openreach has come up with a new functionality of Flexi Cease along with new release of EMP i.e. EMP R900.

Two main advantages of Flexi Cease shown using animation are:

- Cease Lead Time will be reduced.
- Openreach don't have to send engineers to remove jumpers and hence reduction in charges by Openreach. This benefit is passed on to CPs.

Idea Streamz Consultants (P) Ltd

October 2007 to March 2008

(06 months)

Responsible for the Flash, Flash Animation, UI design and front-end development & Translated design comps into clean, cross-browser compatible, coordination with clients.

Leaded and collaborated development efforts on interactive web-based projects, translating requirements into concepts and elegant user experience design, and ensuring robust, reusable, and lasting solutions were implemented.

WebtriX Technologies Ltd.

February 2004 to October 2007

(44 months)

Member of a multi-disciplinary team involved in the analysis, UI design and front-end development of several web based and Flash Based project. As a Designer was involved in the design of various Website, Flash Presentations, Templates design, Logo Design and Design Computer Based Training, systems using Flash MX, Flash Action Script, Adobe Photoshop CS2, Dream weaver MX, HTML. DHTML, CSS, Java Script.

PERSONAL DETAILS

Father's Name : Shri Chandra Dev Prasad
 Date of Birth : 25th December 1979
 Nationality/Passport No : Indian / Z3206023
 Sex/ Marital Status : Male/ Single
 Hobbies : New technology, Traveling, adventurous sports, movies & making friends.
 Address / Mobile No : B-106, Dayanand Colony, Lajpat Nagar- IV, New Delhi-110024 / +91- 9810787502
